

SHREEDHAR G

Student

✉ shreedharg405@gmail.com  linkedin./shreedhar-g  +91 98431 77276  Chennai, Tamil Nadu, India

PROFILE

Electronics and Communication Engineering student with a strong interest in Embedded Systems, VLSI Design, and Communication Systems. Passionate about problem-solving and applying technical skills to real-world projects.

EDUCATION

Sri Saraswathi Vidyalaya Matric Hr. Sec. School, Krishnagiri, Higher Secondary (HSC - 12th) 2022 – 2023

Prince Shri Venkateshwara Padmavathy Engineering College, Chennai 2023 – 2027
B.E. Electronics and Communication Engineering

EXPERIENCE

Adventure Technology Solutions Pvt Ltd., Embedded Systems Trainee 03/06/2025 – 03/07/2025

- Completed training in embedded systems
- Gained practical exposure to hardware and system-level programming
- Worked on real-time applications and basic circuit implementation

SKILLS

Embedded Systems, VLSI Design (basics), Communication Systems, Arduino, Embedded C

CERTIFICATIONS & WORKSHOPS

- LEAP Certificate (LPBO1 & LPBO2 - Arduino Bootcamp & Reverse Engineering)
- LEAP Certificate (LP202 - Practicum for Innovative Engineering)
- Machine Learning Workshop - TECHKRITI'25, IIT Kanpur
- Ethical Hacking Workshop - TECHKRITI'25, IIT Kanpur

PROJECTS

Embedded Smart Poultry Farm Control System

- Developed an Arduino Uno-based smart poultry farm control system to automatically monitor temperature and humidity using a DHT11 sensor.
- Designed an automated control system to operate the heater, intake fan, and exhaust fan through relay modules based on real-time environmental conditions.
- Reduced manual monitoring and improved poultry health by maintaining an optimal farm environment with energy-efficient automation.

INTERESTS

Embedded Systems

VLSI Design

Communication Systems
